# SEA THINGS RETURNS TO SYDNEY

The Red Room Company's national poetry project, Sea Things, has spent two months on a sea odyssey around the country. Collecting poems from students, poets and members of the public at selected ports, it has hooked a swag of original maritime lyrics and shanties from Australians.

Join us to open the traveling duffle bags and their poetic cargo! You'll get to see the screening of documentary footage from the project, and live performances by commissioned poets Petra White (VIC), Luke Beesley (QLD) and Sandra Thibodeaux (NT) as well as a special

guest from Thursday Island, the final location on the itinerary.
