

Free Poetry Writing

Workshops:

– school holidays –
all welcome...all ages...

11am Sunday 28 September

11am Wednesday 1 October

The workshops are presented by **Johanna Featherstone**, poet, writer, founder and Artistic Director of The Red Room Company

and **Gareth Sion Jenkins**, performance and digital media artist and lecturer in experimental creative writing at the University of Technology, Sydney.

The Red Room Company creates, promotes and publishes a spectrum of poetry by Australian writers, in unusual ways. Through a range of forms such as radio, new media and live performance we broaden the public's definition of and experience with high quality Australian poetry. Our education program 'Papercuts' piloted in 2007 works nationally with schools and communities, encouraging them to write, read, publish and perform their own poetry in imaginative ways whilst exploring the works and ideas of individual Red Room projects and our company of poets. We are not-for-profit and based in Sydney. www.redroomcompany.org
